CONTENTS FOR

FLUID MECHANICS—Soviet Research

Volume 16, Nos. 1-6, 1987

Number 1

1 Diffraction of Acoustic Waves by Absorbing Coatings
Yu.A. Sozonenko

4 General Formulation of the Problem of Interaction between Pressure Waves in a Fluid and Rigid Bodies Coated with Thin Compressible Layers
Yu.A. Sozonenko

16 Normal Incidence of a Planar Acoustic Wave onto a Rigid Wall Carrying a Thin Compressible Coating
Le.Ye. Pekurovskiy and Yu.A. Sozonenko

37 Oblique Incidence of a Planar Acoustic Wave on a Rigid Wall Covered by a Thin Compressible Layer
Yu.A. Sozonenko

40 Diffraction of an Acoustic Wave on a Sphere Covered by a Layer of Soft Material
L.Ye. Pekurovskiy, V.B. Porichukov and Yu.A. Sozonenko

63 Diffraction of an Acoustic Wave by a Cylinder Covered by a Layer of Soft Material
V.B. Poruchikov and A.V. Stepanov

71 Determination of the Natural Frequencies of Coiled Tubes
N.S. Leleyev, V.I. Kupryanov, Yu.V. Mishchenko and L.N. Shmarin

78 Effect of the Inlet Eddy on the Drag in Straight Channels
V.V. Burlaka

86 The Effect of Turning of Flow on the Drag in Straight Channels
F.V. Vasil'yev and O.V. Buglayev

92 Reflection of a Plane Shock Wave from a Slot
A.O. Serov, L.S. Shtemenko and F.V. Shugayev

97 An Experimental Study of an Intermittent Liquid Jet
Ye.K. Spiridonov

103 Evaluation of the Hydraulic Loop in Internally Baffled Two-Phase Thermosiphons
M.K. Bezrodnyy, I.M. Zagumennov and S.A. Khavin

112 Power Requirements of Pressureless Hydraulic-Pipeline Container-Carrying Systems
D.M. Apter, P.K. Vlasov, A.A. Karpukhin, A.I. Ovchinnikov and Z.F. Chukhanov
117 Hypersonic Flow over a Planar, Variable-Sweep Wing with Rounded off Edges
V.Ya. Borovoy, A.A. Golubinskiy, G.G. Nersesov, S.M. Pokhvalinskiy, I.V. Struminskaya and V.L. Yumashev
125 Transient Oscillations of Elastic (Acoustic) Media with Spherical Interfaces
A.V. Vestyak, A.G. Gorshkov and D.V. Tarlakovskiy

Number 2

1 Acoustic Control of Perturbations in the Boundary Layer
S.P. Bardakhanov, A.V. Dovgal', Yu.S. Kochanov, V.V. Kozlov, G.P. Svishchev, O.A. Simonov, and V.A. Shcherbakov
9 Asymptotic Theory of the Coanda Effect
Yu.N. Yermak
16 Determination of the Inertia Component of the Force Acting on an Immobile Cylinder in Wavy Liquid
G.V. Makhortykh and M.G. Shcheglova
25 Discrete Vortex Systems in Inhomogeneous Flow over a Flat Plate
B.E. Baskin and V.S. Kaplan
42 Correlation of Experimental Data on the Drag of Bundles of Staggered Tubes with External Circular Fins
V.M. Legkiy and Ye.N. Pis'mennyy
48 Effect of Crossflow on the Overall Parameters of Circular Jets
S.I. Trofimchenko, A.F. Khritinin, V.I. Chernyayev and V.A. Molchanov
54 Heat Transfer on Rounded Forward Edges at Low Reynolds Numbers
V.N. Gusev and V.P. Provotvorov
62 Attainable Superheat in Cryogenic and Low-Boiling-Point [Volatile] Liquids
V.G. Baydakov
141 Gas-Turbine Combustor Noise and Some Ways of Reducing It
V.A. Khristich, A.M. Shevchenko and I.M. Zherebtsov

Number 3

1 Equations of Evolution of an Ensemble of Interacting Particles
A.A. Shrayber and S.V. Tishchenko

11 A Seidel-Type Iterative Spline Procedure for Evaluation of Navier-Stokes Equations
S.V. Rusakov, O.L. Rusakova and O.M. Tetyuyeva
19 Efficiency of Convective Mixing in a Closed Cavity
A.N. Vereshchaga and Ye.L. Tarunin
28 Numerical Investigation of Convection in a Vertical Layer with Peristaltically Moving Walls
G.V. Levina
37 Subcritical Convective Flow of a Binary Mixture with Thermal Diffusion
L.Ye. Sorokin
44 Generation of Thermocapillary and Thermogravitational Convection in an Air-Water System
A.Yu. Gilev, A.A. Nepomnyashchiy and I.B. Simanovskiy
49 Modeling of the Space-Time Structure of Developed Two-Dimensional Turbulent Convection
P.G. Frik
55 Period-Doubling Bifurcation in Finite-Dimensional Models of Convection
M.A. Zaks and D.V. Lyubimov
61 Effect of Alternating Injection and Suction on Transition in the Boundary Layer
V.M. Gilev and V.V. Kozlov
69 Correction for Incomplete Manifestation of the Effect of Roughness on the Parameters of the Turbulent Boundary Layer
Yu.I. Mayorov
82 Fluctuations of Pressure on a Plate Upstream of a Step
V.N. Bibko, B.M. Yefimtsov and V.B. Kuznetsov
96 Equalization of the Temperature of the Flow in Air-Intake Channels
Ye.A. Meshcheryakov, V.A. Sabel'nikov and V.N. Sharikov
108 A Method for Evaluating the Flow of Fluids in a Porous Medium with Sources and Sinks
V.M. Shikhov and V.I. Yakushin
113 Transient Percolation Through an Inhomogeneously Anisotropic Jointed and Porous Bed (Rock Layer)
I.I. Moyseykina
119 Stability of Radial Compression of a Viscoelastic Cylinder
T.M. Burde
128 Thermal Modes Existing in a Screw Extruder for Thermoplastic Materials
O.V. Savenkova, O.I. Skul'skiy and Ye.V. Slavnov
134 Combined Determination of the Recovery Temperature of Gas Flow and Heat Transfer Coefficient by the Calorimeter Method
G.L. Grodzovskiy [dec.], N.A. Kuz'min, A.G. Mikhal'chenko, and A.V. Smirnov

Number 4

1 Production of a Pulsating Jet in a Cylindrical Channel by High-Amplitude Fluctuations of the Gas Flow
R.G. Galiullin and I.P. Revva

7 An Experimental Study of Optimal Limiters of Cooling-Water Escape from Accidentally Ruptured Loops
V.V. Fisenko, Ye.Z. Yemel'yanenko, A.M. Klok, V.Ye. Cheremin, Yu.S. Botuk and I.N. Gvozdikova
12 Waves on Condensate Film Flowing Over the Top Inner Surface of a Horizontal Pipe
V.M. Budov, V.A. Kir'yanov and I.A. Shemagin
17 Fluctuation of Wall Temperature in Film Cooling
B.G. Ganchev and V.V. Trishin
24 Investigation of the Spectrum of Droplets Produced by Condensation in a Jet Mixing Chamber
A.K. Karyshev
29 Distribution of Porosity and Gas Velocity Over the Radius of a Sphere-Filled Channel
A.S. Pushnov, V.J. Survila, A.M. Kagan and L.A. Margis
38 Development of the "Laser-Knife" Technique for Visualizing the Flow in Supersonic Wind Tunnels
A.I. Maksimov and A.A. Pavlov
51 Wave Theory of the Developed Turbulent Boundary Layer
V.A. Zharov
64 Turbulent Momentum and Heat Transfer in the Boundary Layer of a Liquid Downstream of an Obstacle (1. Hydrodynamics)
R.B. Šležas and A.A. Šlančiauskas
78 Control of Transistor to Turbulence in the Boundary Layer by Cancellation of Tollmien-Schlichting Waves by Means of Induced Perturbations
A.A. Pilipenko and G.K. Shapovalov
86 Effect of Suction on the Development of Perturbations in Flows with Separation of the Boundary Layer
A.V. Dovgal', V.V. Kozlov and V.A. Shcherbakov
94 Visualization of Transition to Turbulence in the Boundary Layer by Means of Coatings That Undergo Sublimation
B.Yu. Zanin
100 Some Thermodynamic Aspects of Two-Phase and Cavitation Flows
V.I. Rozenblyum, M.I. Savel'yev and A.M. Tarasenko
110 Modeling of Cavitation-Induced Erosion
Yu.A. Grivnin
118 Experimental Determination of the Aerodynamic Properties of Grids in Free-Molecular Hypersonic Flow
N.A. Gushchina, A.I. Omelik, V.V. Pomarzhanskiy and A.V. Shvedov
128 A Differential Method for Extending Solutions of Parameter-Dependent Systems of Finite Nonlinear Equations
M.G. Goman
138 Slurry Transport of Copper-Ore Beneficiation Wastes
J. Sobota

Number 5

1 Statistical Instability of the Lennard-Jones Fluid
V.G. Baydakov

9 An Experimental Unit for Investigating the Kinetics of Nucleation in Superheated Liquid Helium-4
N.M. Semenova, A.P. Fedorov and G.V. Yermakov
16 Heterogeneous Nucleation in Water Superheated Under "Clean" Conditions
B.M. Smolyak and P.A. Pavlov
22 Growth of a Vapor Bubble in a Nonuniformly Superheated Liquid
P.A. Pavlov
32 The Electrothermal Instability (Transverse Bands of Vapor Nuclei) in Boiling and Vaporization of Electrolytes
V.A. Ivan'ko and G.B. Okonishnikov
39 Effect of Subcooling on the Reaction Force in Discharge of Flashing Water
V.Ye. Vinogradov, Ye.N. Sinitsyn and N.A. Kotel'nikov
42 α-Particle-Induced Flashing of Superheated *n*-Pentane and *n*-Hexane
Ye.N. Sinitsyn and V.S. Uskov
46 Relationships Between Thermodynamic Properties of a Flashing Liquid Vented Through a Short Channel
M.V. Nevolin, O.A. Isayev and A.V. Reshetnikov
52 Series Expansion of the Configuration Integral Over a Narrow Temperature Range and the Thermodynamic Properties of Liquids
G.V. Yermakov
57 Effect of the Nozzle-Exit Geometry on the Reactive Thrust in the Discharge of a Flashing Water
V.Ye. Vinogradov and Ye.N. Sinitsyn
61 An Experimental Unit for Investigating the Discharge of a Flashing Liquid Through Short Channels at Variable Back-pressures
A.V. Reshetnikov, O.A. Isayev and M.V. Nevolin
66 A Molecular-Dynamics Study of a System of Lennard-Jones Disks in the Region of the Liquid-Gas Transition: Dynamics, Structure, Thermodynamic Properties
S.P. Protsenko and V.G. Baydakov
79 Behavior of Liquids at Supercritical Pressures and High Temperature Gradients
N.L. Kafengaus
86 Calculation of Thermodynamic Properties of Separating Solutions of Saturated Hydrocarbons with Perfluorohexane
G.I. Pozharskaya and V.P. Skripov
94 The Reynolds Analogy and the Law of the Wall in a Nonisothermal Boundary Layer in the Case of Vectored Injection and Adverse Pressure Gradient
K.M. Dyusenov, V.P. Motulevich, V.S. Popov, E.D. Sergiyevskiy, N.F. Shitov and L.S. Yanovskiy
101 Computation of the Pore Sinuosity and Shape Factors in Diffusion Through Homogeneously Porous Materials
S.P. Rudobashta and Yu.A. Teplyakov

109 Approximate Calculation of Mass Transfer in Biporous Media Under Nonisothermal Conditions
I.I. Abarzhi and E.S. Malkin
118 Three-Phase Flow with Coalescence, Breakup and Vaporization of Particles
A.A. Shrayber and V.L. Klimov
128 Distribution of Dispersed Medium in a Spouting Bed with a Draft Tube
Yu.G. Klimenko, M.I. Rabinovich and L.F. Voronina
134 Determination of the Friction Factor of a Fluctuating Gas Flow in a Duct
M.M. Kovetskaya, A.G. Platonov and V.M. Lavrik
141 Effect of Salinity on the Entrainment of Droplets by Steam in Bubble-Type Steam Generators
L.S. Sterman and V.S. Agababov

Number 6

1 Introduction
V.V. Struminskiy
9 The Mechanism of Reduction of Friction by Addition of Polymers to Flows
L.I. Sedov, V.A. Ioselevich and V.N. Pilipenko
17 Kinetic Theory of Turbulent Flow
V.V. Struminskiy
43 Numerical Simulation of Flow Separation
O.M. Belotserkovskiy
77 Turbulent Flow Instabilities in Channels and Pipes
V.G. Priymak, V.L. Rozhdestvenskiy and I.N. Simakin
89 Spectra of Anisotropic Turbulent Velocity and Temperature Fluctuations in Turbulent Wall Flows
B.A. Kader and A.M. Yaglom
103 Quantitative Analysis of Intermittency in the Near-Wall Region of a Turbulent Boundary Layer
Ye.U. Repik and Yu.P. Sosenko
111 Turbulent Flow over a Delta Wing
A.D. Khon'kin, A.F. Kiselev and P.P. Vorotnikov
122 Investigation of the Structure of Turbulent Flows in Asymmetrical Corner Configurations
V.I. Kornilov and A.M. Kharitonov
136 Use of Air-Water Jets for Protection of Water Bodies Against Oil Slicks, Penetration of Saline Water, Icing, Sea Waves and Shock Waves
G.N. Abramovich
